

# RACV Royal Pines Resort

HOTEL SECTOR

PROJECT COMPLETED NOVEMBER 2015

NuGreen Solutions was engaged to audit the current fire stair lighting and tunnel lighting throughout the facility at the Gold Coasts RACV Royal Pines Resort. The 5 star facility consists of award winning accommodation, restaurants and bars on a 100 hectares surrounded by manicured gardens and a championship golf course. NuGreen selected a range of energy efficient LED bunker lights with integrated microwave motion sensor that triggers automatic switching between full and standby light output, providing a highly energy efficient cost effective solution.

**RACV** Royal Pines Resort

## THE SOLUTION

<b>57</b>	Fittings to be installed
<b>81%</b>	Saving on lighting spend
<b>7 YEARS</b>	Maintenance free period

## THE BENEFITS

- Reduced electricity bills
- Reduced CO<sub>2</sub> emissions
- Zero maintenance costs for the next 7 years
- Improved lighting environment
- No capital outlay required
- Use of the latest technology
- Future proof around rising energy cost
