

CURRENT (TRADITIONAL) MODEL

- No ownership, pay forever
- No control over cost increase

SOLAR PPA MODEL

- Pay only for what power solar provides
- No (\$0) up front costs
- No (\$0) maintenance costs
- Cheaper than your current tariff
- Own the system at the end of the agreement

BENEFITS COMPARED TO TRADITIONAL ELECTRICITY DELIVERY:

- Overall energy bill is lower
- Less affected by increases in energy costs
- More surety over long term energy costs
- A large proportion of their consumed energy is now green
- After the agreed period has ended the client now owns the system and any energy it generates is free

BENEFITS COMPARED TO PURCHASING SOLAR OUTRIGHT OR LEASING:

- Solar performance is guaranteed, if the system is not working properly it does not cost the client anything
- The client does not have to maintain the system saving cost and worry
- Financial performance is guaranteed and transparent
